

Sew Dayton

While doing our investigation into fabric we wanted to provide an opportunity for the children to be able to see what a fabric store looks like. We also wanted the children to be able to meet a seamstress and watch how they can make things with fabric. We decided to take a field trip to the Sew Dayton store. We got to meet the two women who created the store. The women showed us around their store and showed us their sewing machines. The women did a demonstration for the children and showed them how to make a zipper pouch. They also showed us patterns and different types of fabric that they have at their store. They gave each child a texture card with different types of textures on it.

Standards: Science: C. 1. Recognize properties of materials. Physical Health: D. 10. Follows transportation and pedestrian rules. Language: A. 23. Attends to speakers. Social Emotional: A. 7. Manages impulses and behavior. Approaches Toward Learning: A. 1. Seeks new experiences.
