

Gravity (10)

Refrain: What goes up, must come down
according to the laws of gravity.

Objects fall, to the ground,
according to the laws of gravity.

A ball rolls down a ramp, yeah, yeah, yeah,
it rolls fast or slow.

It rolls down the ramp, fast or slow,
depending upon, the friction on the load.

Refrain

A ball rolls down a ramp, yeah, yeah, yeah,
it rolls fast or slow.

A ball rolls down the ramp, fast or slow,
depending if the ramp is high or low.
