

## Levers, Wedges, and Screws (11)

**Refrain:** Levers, wedges, and screws,  
make loads easy to move.  
Or hold them together,  
levers, wedges, and screws.

Move the lever back and forth  
to make the load easy to move.  
Push the wedge between two objects  
to push them apart.

Turn the screw round and round  
to make the load easy to move  
Or turn the screw round and round  
to hold objects together.

**Refrain**
