

Like a Scientist (3)

Refrain: Like a scientist, like a scientist,
gather information like a scientist,
Make a prediction, make a prediction,
making a prediction like a scientist.

Wave your hands all around because we use them to touch
to gather information like a scientist.

Wiggle your ears all around because we use them to hear sounds,
to gather information like a scientist.

Open your eyes shut and wide because we use them to see,
to gather information like a scientist.

Scrunch your nose up and down because we use it to smell,
to gather information like a scientist.

Refrain
