

ACCESS Assessment System
Observational Check sheets (OCs)
Mathematics

Indicator																			
<i>Strand: Algebra</i>																			
<i>Topic: Group and Categorize</i>																			
Sorts and classifies objects by 1 attribute																			
Sorts and classifies objects by more than 1 attribute																			
<i>Strand: Measurement and Data</i>																			
<i>Topic: Describe & Compare Measure Attributes</i>																			
Describes and compares using measure attributes																			
Orders objects by measureable attributes																			
Measure length and volume (non-standard)																			
<i>Strand: Geometry</i>																			
<i>Topic: Spatial Relations</i>																			
Demonstrate understanding of relative positions: In/on/under																			
Above/below																			
Up/down																			
<i>Topic: Identify and Describe Shapes</i>																			
Understands and uses shape names																			
Names 3-dimensional objects using informal language																			
<i>Topic: Analyze, Compare and Create Shapes</i>																			
Compares 2-dimensional shapes by size and orientation using informal language																			
Creates shapes in play (drawing, building)																			
Combines shapes to form larger shapes
